📍 Memphis 📞 901-288-4006 ✉ jhill42015@gmail.com 💻 Software Engineering Intern 🔗 [linkedin.com/in/joshua-r-hill](https://www.linkedin.com/in/joshua-r-hill)

SUMMARY

Software Engineering student at Western Governors University with experience in Python, Java, JavaScript, and backend development. Built REST APIs and database-driven applications through coursework and personal projects. Strong foundation in software engineering, programming, databases, and problem-solving, with a focus on building practical software.

EXPERIENCE

Produce Department Associate | Kroger

03/2013 to Present

- Recognized for 12+ years of reliable performance and zero absences, supporting smooth daily operations in a high-pressure environment
- Supports operations, inventory management, and teamwork in a fast-paced environment
- Provides dependable customer assistance and daily problem resolution

EDUCATION

Bachelor of Science — Software Engineering | Western Governors University (WGU)

2025 to Present

- Focus Areas: Programming fundamentals, backend development, databases, software engineering principles, problem solving, data structures, and system design concepts.

Nucamp Coding Bootcamp — Full-Stack Web Development (2022) | Nucamp

2022 to 2023

- Frontend development with HTML, CSS, and JavaScript
- Responsive web development fundamentals
- Introduction to backend programming & APIs
- Version control using Git & GitHub

A.A.S. Computer & Electronics Engineering Technology(2010) | ITT Technical Institute

2010 to 2012

Awards: Highest Academic Honors • Academic Honors • Perfect Attendance

SKILLS

Python	Java	JavaScript
React	HTML	CSS
Angular	REST APIs	JSON
SQL fundamentals	Databases	Data handling concepts
Basic algorithms	Git / GitHub	VS Code
Programming Concepts	Problem solving	Debugging
